

STRONGER TOGETHER

Family & Friends: An Addiction Support Group

Spouses & Partners Meeting 1st & 3rd Wednesday at 6:30p.m.

Addiction can have a devastating impact on your committed relationship. The feelings of trust, respect, and compassion you have toward your partner can quickly be replaced by anger, resentment, and fear. You isolate yourself, minimizing or hiding your partner's substance use disorder while taking on increased responsibility for their life. Your promising future becomes a stressful undertaking. You may even consider giving up on the relationship.

Juggling addiction and a relationship may seem overwhelming. Fortunately, you are not alone in your struggle. **Stronger Together: Spouses & Partners** is a support group for people facing similar challenges. Through shared experiences, you will broaden your understanding of addiction and assess its impact on your relationship. You'll also learn the importance of drawing healthy boundaries and allowing your loved one to accept responsibility for their life. Join Stronger Together and benefit from the encouragement and support of others as you begin your own recovery journey.
