

STRONGER TOGETHER

Addiction-Related Grief Support Group

Grieving the loss of a loved one can be a lonely journey, especially when it's a loss due to drugs or alcohol.

FAN's Stronger Together Addiction-Related Grief Support Group

is for people who have lost someone to substance use. It provides the opportunity for individuals and families to connect with others and openly discuss the death of their loved one.

Guided by a set of touchpoints, you'll learn to integrate a healthy understanding of addiction into your grieving process. You'll also gain insight into the complex emotions of your loss.
